<b>Hindi</b>	Fluent
<b>English</b>	Fluent

## About Me

---

I'm a first-year Computer Science and Engineering student at IIIT Hyderabad, driven by a deep curiosity and a passion for continuous learning. I enjoy working on technically challenging problems, particularly in areas such as IoT systems, Web Development, and the design and analysis of Data Structures and Algorithms. Hard work is my hallmark, and I'm always eager to expand my horizons. Lately, I've also been fascinated by stock market analysis, where logic meets unpredictability. For me, learning is a journey of discovery, and every new skill is a step towards building something meaningful.
